THE STRATOFIGHTER COVERT™

TACTICAL FOLDER

US RETAIL: $229.00

With 100% of the features of the fullsize StratoFighter, the StratoFighter Covert offers the same capabilities in a concealable package. A full inch smaller when folded, 17% lighter, but equally lethal. For Law Enforcement applications where the deployment of a full size fighter may be inappropriate, the Covert model is pocket concealable, with multi-configurable belt clip. Production versions feature the StratoFighter Covert Laser Engraving and CTV2 Steel demarcation. 100% made in America! Choice of Tanto or Spear point blade styles with half serrated cutting edges, specify blade choice.
